EMAIL SWIPE 1 — The New Puzzle Book Angle

Subject: A Different Kind Of Puzzle Book Builder

Hi,

If you publish puzzle books on Amazon KDP, here's something new you might want to take a look at.

Mystery Number Search Builder lets you create a different style of number puzzle where readers:

Find the hidden numbers.

Decode them using an alphabet key.

Reveal the mystery word or phrase.

Instead of simply giving you prompts or ideas, the Builder creates the **actual puzzle pages ready for your book project.**

You can create different themes, mysteries and puzzle books without manually building every puzzle yourself.

If you're looking for a fresh puzzle-book concept to add to your publishing business, take a look here:

EMAIL SWIPE 2 — Not Another Prompt Builder

Subject: This Actually Builds The Finished Puzzles

Hi,

There are plenty of tools around that give you prompts, ideas and instructions.

This isn't one of them.

Mystery Number Search Builder actually creates the finished puzzle pages for you.

Choose your mystery, create the puzzle and let the Builder handle the number search and decoding system.

The reader finds the numbers, cracks the alphabet code and reveals the hidden mystery.

It's a simple idea, but it opens up all kinds of themed puzzle-book possibilities.

And because you're creating the finished puzzle rather than being handed another prompt, you can go straight from the Builder into creating your book.

See it working here:

[INSERT AFFILIATE LINK]

It's currently available for **\$37 during launch.**

EMAIL SWIPE 3 — Show Them The Result

Subject: Find The Numbers. Crack The Code. Reveal The Mystery.

Hi,

Here's a fun twist on traditional number-search puzzle books.

Instead of simply finding numbers on a page, readers have a mystery to solve.

Step 1: Find the hidden numbers.

Step 2: Take the first two digits.

Step 3: Match them to the alphabet code.

Step 4: Reveal the hidden mystery word or phrase.

And there's now a Builder that creates these puzzles for you.

It's called **Mystery Number Search Builder**.

You can use it to create themed puzzle books without manually designing and working out every individual puzzle.

Take a look at the examples and see the Builder in action here:

[INSERT AFFILIATE LINK]

Launch price is currently **\$37**.

EMAIL SWIPE 4 — KDP Publisher Angle

Subject: Looking For Your Next KDP Puzzle Book?

Hi,

Finding another puzzle-book idea is easy.

Finding something you can actually turn into a finished book is usually the harder part.

That's why I thought you'd want to see **Mystery Number Search Builder**.

It gives publishers a way to create Mystery Number Search puzzle books where readers find hidden numbers, decode them and reveal mystery words and phrases.

And importantly, you're not buying another collection of prompts.

The Builder creates the actual puzzle pages.

That means you can concentrate on choosing your theme and building your book rather than manually creating every puzzle.

You can see what it does here:

[INSERT AFFILIATE LINK]

It's launching for **\$37**.

If puzzle books are part of your KDP publishing plans, this is worth a look.

EMAIL SWIPE 5 — Short Version

Subject: New: Mystery Number Search Builder

Hi,

A new puzzle-book creation tool has just launched.

Mystery Number Search Builder helps you create finished number-search mystery puzzles where readers:

Find the numbers → crack the code → reveal the mystery.

This isn't a prompt generator.

The Builder creates the **actual puzzle pages** you can use to build your own themed puzzle books.

If you're publishing puzzle books or looking for something different to create next, you can see it here:
