

IMPORTANT

MYSTERY ANSWER LIMITS

Mystery Number Search Builder supports mystery answers containing:

- Up to 4 words
- Up to 24 letters in total
- Spaces do not count towards the 24-letter limit

For example:

THE PIRATE TREASURE MAP

This contains 4 words and 19 letters, so it can be used inside the Builder.

Try to keep your mystery answers reasonably short whenever possible.

Shorter words and phrases are easier to work with and are ideal for creating clean Mystery Number Search puzzles.

If an answer contains more than 4 words or more than 24 letters, the Builder will not generate that puzzle.

IMPORTANT:

Punctuation, numbers and special characters are removed when the mystery answer is processed.

For best results, use normal words and short phrases made up of letters and spaces.

QUICK RULE:

Maximum 4 Words
Maximum 24 Letters
Spaces Don't Count
