Always use your own WarriorPlus tracking link so your referred sales can be attributed correctly.

6. How to Use the Promotional Materials

You're welcome to customise the supplied promotional content.

You can rewrite headlines, adapt the text, add your own introductions and select the promotional graphics that suit your audience.

Before publishing, remember to:

- Replace all [YOUR AFFILIATE LINK] placeholders.
- Check that your links work correctly.
- Include appropriate affiliate disclosures.
- Verify current pricing and product details.
- Avoid making unsupported income or earnings claims.
- Follow applicable email marketing and advertising rules.

Please do not present the supplied review article as a personal product test unless you've genuinely tested the product yourself.

The Wedding Planning PLR Starter Kit is primarily designed for:

- Digital product creators

The product provides editable resources that buyers can customise, rebrand and sell as finished end-user products.

9. Important Affiliate Guidelines

We want this launch to be a positive experience for both affiliates and customers.

Please promote responsibly, use accurate product information and avoid misleading claims.

There are no guaranteed earnings or sales results. The promotional toolkit is provided to help you market the offer, but the results of your promotions will depend on your audience, traffic and marketing activities.

All affiliate bonuses are subject to the published qualification rules and sales verification.

10. Thank You for Your Support!

We appreciate every affiliate who takes the time to promote the Wedding Planning PLR Starter Kit. Whether you generate a few sales or reach multiple bonus milestones, we're grateful for your support.

We've worked to provide a complete set of promotional materials so you can focus on sharing the offer with your audience.

Your Sales. Your Rewards.

Good luck with the launch!
